

CUT-UP

SADDLE CUTTER

DESCRIPTION

Used to split the saddle either with the backbone or without (two blades cut). The cut is achieved through a rotating blade, driven by electric motor, (double blades in case of saddle without backbone) which split the saddle. To get the best yield the weight difference in the flock cannot exceed 500gr The machine is made of stainless steel.

TECHNICAL DATA

Length	800 mm
Width	500 mm
Height	700 mm
Power installed	0,37 kw
Total weight	65 kg
Shipping volume	0,3 M ³
